

CTC 12 SQ - 1/2" x 1/2" CTC Square Vertical Wall Trim

- Provides clean transition between walls meeting at a corner, preventing chipping at the edges.
- Can be installed with ceramic, wood, or stone tiles in both wall and floor applications.
- Can be used as a stair nosing, or as a design element in floor or wall pattern.

Installation Instructions

- Adhere perforated leg to one wall edge with hard flooring adhesive. Cantilever metal overhang to match the thickness of the adjoining tile. The tile should be flush to the top of the metal.
- Cover entire leg with adhesive and set tile or wood flush with top of trim.
- Leave up to a 1/16" joint along the edge and grout as usual.
- Butt adjoining material to meet edge of overhanging metal.
